#### INSTRUCTION TO AUTHORS

The "HAYAT" is the official scientific quarterly publication of the School of Nursing & Midwifery, Tehran University of Medical Sciences.

It accepts Original Papers, Review Articles, Short Communications and Letters to the Editor in the fields of Nursing & Midwifery.

**Submission:** Papers submitted for publication should describe original work, not previously published elsewhere, totally or partly. Manuscripts must be submitted only in Persian or English and should be written according to sound grammar and proper terminology. Submission is only acceptable via Journal URL: <http://hayat.tums.ac.ir/>

Manuscript must be accompanied by a covering letter to the Editor-in-Chief, including title and author(s) name and undertaking that it has not been published or submitted elsewhere.

**The title page:** The complete title of the manuscript, the name of the author(s) with their highest qualifications, the department or institution to which they are attached, address for correspondence with Telephone numbers, Fax number, and Email)

**The manuscript should include:** Title; No author (s) name; Abstract; Introduction; Materials & Methods; Results; Discussion; Acknowledgement and References.

The abstract (no more than 250 words) in structured format as Background, Methods, Results and Conclusion followed by 3 to 5 Keywords. Use terms from the Medical Subject Heading (MeSH) list of Index Medicus (<http://www.nlm.nih.gov/mesh/MBrowser.html>). Authors need to be careful that the abstract reflects the content of the article accurately.

**Introduction:** This should summarize the purpose and the rationale for the study. It should neither review the subject extensively nor should it have data or conclusions of the study.

**Materials & Methods:** This should include exact method or observation or experiment. If an apparatus is used, its manufacturer's name and address should be given in parenthesis. If the method is established, give reference but if the method is new, give enough information so that another author is able to perform it. If a drug is used, its generic name, dose and route of administration must be given. For patients, age, sex with mean age  $\pm$  standard deviation must be given. Statistical method must be mentioned and specify any general computer program used.

**Results:** It must be presented in the form of text, tables and illustrations. The contents of the tables should not be all repeated in the text. Instead, a reference to the table number may be given. Long articles may need sub-headings within some sections (especially the Results and Discussion parts) to clarify their contents.

**Discussion:** This should emphasize the present findings and the variations or similarities with other work done in the field by other workers. The detailed data should not be repeated in the discussion again. Emphasize the new and important aspects of the study and the conclusions that follow from them. It must be mentioned whether the hypothesis mentioned in the article is true, false or no conclusions can be derived.

**Acknowledgement:** All contributors who do not meet the criteria for authorship should be covered in the acknowledgement section. It should include persons who provided technical help, writing assistance and departmental head that only provided general support. Financial and material support should also be acknowledged.

Short communication when possible; follow the same structure as original papers.

**Tables:** In limited numbers should be submitted with the **captions placed above**. Do not submit tables as photograph. Place explanatory matters in footnotes, not in the heading.

**Figures:** Should be in limited numbers, with high quality art work and mounted on separate pages. The captions **should be placed below**. The same data should not be presented in tables, figures and text, simultaneously.

**References:** All manuscripts should be accompanied by relevant references. The author should ensure reference to locally published studies by doing proper literature search. It may not be possible for the editor and reviewers to check the accuracy of all reference citations. To minimize such errors author should verify references against the original documents. The Reference should provide the following information as stated in the presented models as follows:
