
Instructions for Authors

International Clinical Neuroscience Journal is devoted to rapid publication of original research works which are of great interest to the broad community of neuroscientists. Manuscripts in all areas of neuroscience including molecular, cellular, developmental, systems, behavioral and cognitive, and related fields will be considered for publication.

• Submission

Submission of a manuscript to *Clinical Neuroscience* must constitute of original research not previously published, and that it is not being considered for publication elsewhere. Manuscripts submitted under multiple authors are reviewed on the assumption that all listed authors have agreed on the submission and that a copy of the final manuscript has been approved by all authors. Manuscripts are first reviewed by the section editors to ensure their appropriateness relevant to the framework of the journal. The manuscript would be peer-reviewed by related specialists. If accepted, the article shall not be published elsewhere, without the consent of the Editors and Publisher.

• Types of Articles

Types of articles are based on PubMed definitions. For more info please refer to: <http://dtd.nlm.nih.gov/publishing/tag-library/3.0/n-w2d0.html>

Abstract: The article itself is an abstract (of a paper or presentation) that usually has been presented or published separately.

Announcement: Material announced in the publication (may or may not be directly related to the publication)

Article Commentary: A work whose subject or focus is another article or articles; this article comments on the other article(s). (This value would be used when the editors of a publication invite an author with an opposing opinion to comment on a controversial article, and then publish the two together. The somewhat similar value “*editorial*”

is reserved for commentary written by an editor or other publication staff.)

Book Review: Review or analysis of one or more printed or online books (The similar value “product-review” is used for product analyses.)

Books Received: Notification that items, e.g., books or other works, have been received by a publication for review or other consideration

Brief Report: A short and/or rapid announcement of research results

Calendar: A list of events

Case Report: Case study, case report, or other description of a case

Collection: Wrapper article for a series of sub-articles or responses; this value’s usage is restricted to articles whose intellectual content appears primarily in or .

Discussion: Invited discussion related to a specific article or issue

Dissertation: Thesis or dissertation written as part of the completion of a degree of study

Editorial: Opinion piece, policy statement, or general commentary, typically written by staff of the publication (The similar value “article-commentary” is reserved for a commentary on a specific article or articles, which is written by an author with a contrasting position, not an editor or other publication staff.)

In Brief: Summary or teaser of items in the current issue

Introduction: An introduction to a publication, or to a series of articles within a publication, etc., typically for a special section or issue

Letter: Letter to a publication, typically commenting upon a published work

Meeting Report: Report of a conference, symposium, or meeting

News: News item, normally current but atypically historical

Obituary: Announcement of a death, or the appreciation for a colleague who has recently died

Oration: Reprint of a speech or oral presentation

Partial Retraction: Retraction or disavowal of part(s) of previously published material

Product Review: Description, analysis, or review of a product or service, for example, a software package (The similar value “book-review” is used for analyses of books.)

Rapid Communication: Fast-breaking research update or other news item

Reply: Reply to a letter or commentary, typically by the original author commenting upon the comments

Reprint: Reprint of a previously published article

Research Article: Article reporting on primary research (The related value “review-article” describes a literature review, research summary, or state-of-the-art article.) Clinical trials is categorised in this group.

Retraction: Retraction or disavowal of previously published material

Review Article: Review or state-of-the-art summary article (The related value “research-article” describes original research.) Systematic review or Meta analysis is categorised in this type.

Translation: Translation of an article originally produced in a different language

Corrections: Erratum, Corrigendum, Addendum

• Declaration of Copyright in the journal website

Manuscripts of length up to a maximum of 8000 words will be considered for publication. Articles should be written in English, and double spaced with wide margins. The layout and style should

adhere strictly to the instructions given and in particular, the reference style of VANCOUVER. The author(s) must declare that all experiments on human subjects were conducted with the adequate understanding and written consent of the subjects. When experimental animals are used, the methods section must clearly indicate that adequate measures were taken to minimize pain or discomfort. All animal experiments must be approved by local animal care and use committees.

• Ethical Committee

Submission items include Cover Letter, Reviewer Suggestions (at least 3), Manuscript including Title Page, Abstract, Main text (Original Paper: Introduction, Materials and Methods, Results, and Discussion), Acknowledgements, References and Tables/Figure Legends, Tables and Figures. Text files (double-spaced) of the manuscript should be supplied in Microsoft Word format.

Authors should submit their manuscript through online submission process of FNRC journal website: <http://journals.sbm.ac.ir/Neuroscience>

And for further information please contact us with the CN mail Box: fnrc@sbm.ac.ir

Title Page: This page should contain the following items: (i) complete title (preferably no chemical formulas or arbitrary abbreviations); (ii) full names of all authors; (iii) complete affiliations of all authors; (iv) the number of text pages of the whole manuscript (including figures and tables) and the number of figures and tables; (v) running title; (vi) the name and complete address of the corresponding author (as well as telephone number, facsimile number and E-mail address, and if available URL address) to whom correspondence and proofs should be sent.

Running title: A maximum of 40 characters with spaces should be provided.

Abstract: An Abstract of up to 250 words describing the background and purpose of the study, methods, results, and conclusion should precede the main text.

Keywords: A maximum of 6 keywords or phrases should be provided; preferably, these should be selected from the body of the text.

Main text: In general, the main text of the manuscript should be organized as follows: Introduction, Materials and Methods, Results, Discussion, Acknowledgements, and References.

References: The list of references should be arranged and numbered in order of appearance in the text according to VANCOUVER Reference Style Guide, not alphabetically. The appropriate number should be inserted as superscript in the text. The full titles of the quoted publications should be listed. List the first six authors followed by “et al.”. Examples:

1. Halpern SD, Ubel PA, Caplan AL. Solid-organ transplantation in HIV-infected patients. *N Engl J Med.* 2002;347(4):284–7.
2. Gilstrap LC 3rd, Cunningham FG, VanDorsten JP, editors. *Operative obstetrics.* 2nd ed. New York: McGraw-Hill; 2002.
3. Cancer-Pain.org [homepage on the Internet]. New York: Association of Cancer Online Resources, Inc.; c2000-01 [updated 2002 May 16; cited 2002 Jul 9]. Available from: www.cancer-pain.org.

A full list of examples can be found at the *National Library of Medicine website*.

Illustrations: Illustrations will appear either across a single column (8 cm) or a whole page (15 cm). The illustrations should be numbered in Arabic numerals according to the sequence of appearance in the text, where they are referred to as Fig. 1, Fig. 2, etc. Figure legends should be concise and clear and should not duplicate the body of the text. Each illustration must have a title and an explanatory legend. The title should be part of the legend and not be reproduced on the figure itself. The legends should be placed on a separate page at the end of the manuscript and begin with the number of the illustration they refer to. All symbols and abbreviations used in the

figure must be explained. Also, please indicate their appropriate locations in the manuscript.

Tables: Tables should be so constructed that they, together with their captions and legends, will be intelligible with minimal reference to the text. Tables of numerical data should each be typed (with double-spacing) on a separate page, numbered in sequence in Arabic numerals (Table 1, 2, etc.) and referred to in the text as Table 1, Table 2, etc. The title of the table should appear above it. A detailed description of its contents and footnotes should be given below the body of the table. Also, please indicate their appropriate locations in the manuscript.

Conflicts of interest: Authors should disclose, at the time of submission, information on financial conflicts of interest or other interests that may influence the manuscript. Authors should declare sources of funding for the work undertaken.

Peer Review Process: Submitted manuscripts will be reviewed by the editorial board and will be accepted if they meet the “International Clinical Neuroscience Journal” criteria and stand in harmony with the standards of the journal. Reviewers deal with manuscripts blindly and discuss the comments in editorial sessions. Reviews are then sent to the corresponding authors for suggested modifications and the corrected version of the manuscript will be peer-reviewed for a second time by two or three external reviewers.

Proofs: Authors will receive proofs by email. Only printer’s errors may be corrected; no change in, or additions to, the edited manuscript will be allowed at this stage. The corrected proofs must be returned within 72 hours after receipt by email. If the Publisher receives no reply, the assumption will be made that there are no errors to correct and the article will be published.
